

Take a virtual tour of Crosswinds Veterinary Hospital!

Front Lobby and Reception

Enjoy our spacious lobby and wheelchair accessible front desk. Please feel free to make a coffee or grab a drink from the mini fridge!

Dog Exam Rooms:

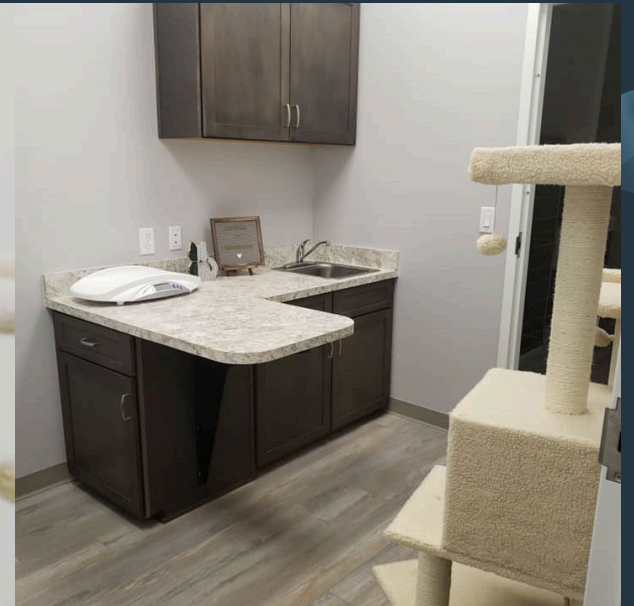

We offer spacious rooms with a foldable exam table. Pets can play with toys and enjoy treats provided for them in the room. The TV allows the doctor to show x-ray and bloodwork results as well as discuss treatment plans. Each month the TV will have an educational slide show for owners to review.

Cat Exam Room

There is a separate room dedicated to felines. It is equipped with a cat tree and a basket full of toys and treats to provide an inviting environment.

The room will be sprayed with calming pheromones prior to the visit to promote relaxation.

Dog Treatment

We are equipped with state-of-the-art blood analyzers and urinary machines. Our microscope is also integrated with a camera to allow us to take videos and pictures of samples and share our findings with clients. The wet table in this area is large enough to accompany even large breed dogs and is designed to perform dental cleanings.

There is a cage dedicated as our oxygen chamber for those with breathing issues or heart conditions.

Cat Treatment

We've separated feline and canine treatment areas to reduce stressors associated with noises and smells from the other species.

Equipped with its own cages and tabletop area for treatment and hospitalization.

Diagnostic Imaging Room

Equipped with state-of-the-art digital radiology machine.

*All radiograph series include review by a radiology specialist to make sure the best and most accurate diagnosis can be made.

Portable ultrasound available and allows advanced diagnostic imaging.

Radiographs and ultrasound images are shown in the room during appointments and are sent directly to the clients for viewing even after the appointment.

Surgery Suite

Sterile room, Heated table, and High-quality monitoring equipment to optimize the anesthetic and surgical experience

Additional Rooms: Isolation Area and Hospitalization Area

Spacious,
Comfortable
Runs for our
large breeds that
are hospitalized
or recovering
from surgery

Isolation: Allows for optimal treatment
and control of contagious disease

Consultation Room

This room was designed to be as comfortable as possible when it comes time to say goodbye to our beloved pet.

A couch for your family's comfort and a bed for your pet is provided. A separate entrance and exit door is present to provide optimal privacy during this time.
